REQUEST FOR FURTHER OFFICE ACTION

Hon. Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Sir:

It is respectfully requested that the Examiner act on all the claims of record in the above-identified patent application.

In an Office Action dated January 27, 1984, the Examiner acted only on claims 1-4. On December 1, 1983 there was filed in the U.S. Patent and Trademark Office claims 5-41, which have not yet been acted upon.

It is particularly important that an Office Action be obtained on these claims because they also include product, in contrast to process claims including pharmaceutical compositions and a therapeutic method of using same. The "non-process" claims are represented by claims 22 through 41.

In order not to cause any delay in the prosecution of this patent application, it will be satisfactory if in the additional Office Action the same time for response be kept
